MEETS REQUIREMENTS FOR 8.0 HOURS ADVANCED TRAINING
IN DOMESTIC VIOLENCE EDUCATION FOR
DOMESTIC VIOLENCE TREATMENT PROVIDERS!

TOPICS:

Chen Oren, Ph.D.

• Counseling Fathers

Helping men become better fathers may be the most important contribution that counselors and therapists ever play. Using media clips and contemporary research, this presentation will identify creative interventions on how to help men from diverse cultures and their family.

William Eddy, LCSW, Esq.

• Dealing With High-Conflict People

High conflict people become preoccupied with a Target of Blame—usually someone close to them or someone in a position of authority. Managing high conflict people usually involves using skills which are the opposite of what one feels like doing. Learn innovative approaches and proven strategies for managing these challenging clients.

James Reavis, Psy.D.

• Attachment Loss and Violence

Contemporary theories in attachment theory help us understand the complexity of relationship violence in new ways. This presentation will offer innovative cutting edge interventions for applying attachment theory in reaching men who are violent and abusive.

CONTINUING EDUCATION

This workshop is approved for 8.0 continuing education hours for psychologists, LCSW's, MFT's, RN's, drug and alcohol counselors (NAADAC), and certified counselors (NBCC).
